

## Roofing Job Description

**Performing General Physical Activities-** Performing physical activities that require considerable use of your arms and legs, moving your whole body, such as, climbing, lifting, balancing, walking, stooping, and handling of materials.

**Handling and Moving Objects-** Using hands and arms in handling, installing, positioning, moving materials, and manipulating things.

- 1) **Gross Body Equilibrium-** The ability to keep or regain your body balance or stay upright when in an unstable position.
- 2) **Static Strength-** The ability to exert maximum muscle force to lift, push, pull, or carry objects.
- 3) **Stamina-** The ability to exert yourself physically over long periods of time without getting winded or out of breath.
- 4) **Extent Flexibility-** The ability to bend, stretch, twist, or reach with your body, and/or legs.
- 5) **Explosive Strength-** The ability to use short bursts of muscle force to propel oneself (as in jumping or sprinting) or to throw an object
- 6) **Manual Dexterity-** The ability to quickly move your hand, your hand together with your arm, or your two hands to grasp, manipulate, or assemble objects.

### Typical Activities

- Apply plastic coatings and membranes, fiberglass or felt over sloped roofs before applying shingles
- Nail flashing –strips of metal or shingles over joints to make them watertight.
- Cover roofs and walls of structures with asphalt, aluminum, wood, gravel, gypsum and/or related materials using brushes, knives, punches, hammers, and other tools.
- Cut felt, shingles, and strips of flashing and other roofing materials; and fit them into angles formed by walls, vents, and intersecting roof surfaces.
- Cut roofing to size using knives; and nail or staple roofing to roofs as needed to form bases for other materials and for final roof coverings.
- Install partially overlapping layers of material over roof surfaces, determining proper installation of roofing materials using chalk lines, tape measures, gauges on tools, or other methods.
- Install vapor barriers and/or layers of insulation on the roof decks of flat roofs, and seal the seams.
- Install, repair, or replace single-ply roofing systems, using waterproof sheet materials, such as, PVC, TPO, EPDM, modified plastics, elastomeric, or other asphaltic compositions.
- Work at height along elevated edges, inclines, flat, surfaces, steep surfaces, while exposed to all weather conditions.
- Frequently climb and work around ladders, scaffolding, etc.
- Able to perform job duties, maintain physical well-being (hydration, sunscreen, proper clothing, etc.), and maintain safe working environment, in all weather conditions.
- Remove (tear-off) all common roofing materials from residential and commercial roofing projects using shovels, spades, hammers, pitch forks, rakes, brooms, etc.
